Fetal Alcohol Spectrum Disorder: **Federal Perspectives, Resources, and Strategies for Support**

On September 21, 2026, SAMHSA's Center for Substance Abuse Treatment (CSAT) will host a webinar exploring Fetal Alcohol Spectrum Disorder (FASD).

The webinar will feature subject matter experts from:

- Center for Substance Abuse Treatment (CSAT)
- The Centers for Disease Control and Prevention (CDC)
- The Administration for Children and Families (ACF)
- The National Institutes of Health (NIH)

They will be speaking to their organizations' programs and resources, while also sharing strategies for serving individuals with FASD. Through these federal, cross-agency perspectives, participants will gain a broader understanding of how research, prevention, treatment, and supportive services intersect across the FASD landscape. Following the presentation, attendees will have the opportunity to engage with the presenters during a moderated question-and-answer session. The webinar is open to all, but registration is required.

MONDAY
September 21st
3:00–4:30PM ET

Mental Health Clinicians

The Community of Practice is a free, monthly peer consultation and reflection group for mental health clinicians. Offered in partnership by FASD United and CanFASD, the group meets virtually on the last Thursday of every month starting in September 2026, and provides clinicians a space to learn alongside others doing the same work .
